

# Using the AWS Policy Generator denying the Access of using the S3 Bucket to the Specified User.

Using the Policy generator we can easily create an Policy For any Service Mentioned in the AWS Policy generator.

I have Created one S3 Bucket and IAM User.

IAM User.

S3 Bucket.

And the using the Amazon Resource Names of the IAM User and S3 Bucket I have Created an Policy In Policy Generator.

I have selected Deny So this Policy Deny the Access of the Particular User To Access the S3 Bucket.

**Step 2: Add statement(s)**  
A statement is the formal description of a single permission. See a [description of elements](#) that you can use in statements.

**Effect**  
☐ Allow  
☒ Deny

**Principal**  
  
Use a comma to separate multiple values.

**Actions**  
☒ All Actions ("\*")

**Amazon Resource Name (ARN)**  
☐ All Resources ("\*")  
  
ARN should follow the following format: arn:aws:s3:::\$(BucketName)/\$(Key/Name). Use a comma to separate multiple values.

► Add conditions (optional)

[Add Statement](#)

**Step 3: Generate policy**  
A policy is a document (written in the [Access Policy Language](#)) that acts as a container for one or more statements.

[Generate Policy](#)

Created Policy.

**Policy JSON Document** ✕

Click below to edit. To save the policy, copy the text below to a text editor. Changes made below will **not be reflected in the policy generator tool**.

```

1  {
2    "Version": "2012-10-17",
3    "Statement": [
4      {
5        "Sid": "Statement1",
6        "Effect": "Deny",
7        "Principal": {
8          "AWS": "arn:aws:iam::051741041276:user/hari-iamuser"
9        },
10       "Action": "s3:*",
11       "Resource": "arn:aws:s3:::s3-bucket-278483387"
12     }
13   ]
14 }
```

1:1 JSON

This AWS Policy Generator is provided for informational purposes only, you are still responsible for your use of Amazon Web Services technologies and ensuring that your use is in compliance with all applicable terms and conditions. This AWS Policy Generator is provided as is without warranty of any kind, whether express, implied, or statutory. This AWS Policy Generator does not modify the applicable terms and conditions governing your use of Amazon Web Services technologies.

[Close](#) [Copy Policy](#)

After Copying the Policy We have to paste it in the Bucket's Policy In the Permission Section.

Amazon S3 > Buckets > s3-bucket-278483387 > Edit bucket policy

**Amazon S3**

Objects | Metadata | Properties | Permissions | Metrics | Management | Access Points

**Objects**

Objects are the fundamental entities stored in Amazon S3. You can use [Amazon S3 inventory](#) to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. [Learn more](#)
